

OUR MISSION...

SOUNDLAB

At **Logic** our mission continues to be ambitious but simple... the fusion of technology and design at a great value. That's why we're one of the fastest growing car audio lines in the world. Our engineers and designers work together to create components you are proud to put in your car, components specifically created for today's high quality and bass-oriented sound. Since our inception, we have offered innovative new products that are on the cutting edge of design and performance. They look great and sound even better!

The fusion of technology, design and value is a reality. We created it in our labs. Now you hear it on your street.
